Description

In the heart of the tourist resort of Sidari, these apartments are a great investment opportunity with a long standing summer rental history. Only a hundred meters from the nearest beach in Sidari, Jasmine apartments are set amongst a beautiful garden with a spacious swimming pool. Overlooking the pool and garden, all studios and apartments have a well fitted and equipped kitchen. There are eight studios and two double rooms, each with a private shower room. Supermarkets, restaurants and bars are within a five-minute stroll and Corfu town is around thirty km from here, with buses running daily. This is a massive investment opportunity, as it could be used for summer rental and would definitely work all summer long. The apartments are in excellent condition, ready to operate straightaway.
