Description

With an fantastic unobstructed sea view and a short walk from Es Torrent Beach, this recent accomplishment in the gated community of Vista Alegre has a different approach to the study of spaces and form, where the villa conveniently joins an independent self contained house into the larger main house to allow for guests or friends to feel together but with private space. Brilliant design solutions have been placed for fusing conventional with modern architectural lines and blending the lush garden into the every day life environment. The main house consists of the master bedroom and two guest bedrooms on the upper level with beautiful unobstructed sea views and the diaphanous living-dining area downstairs, state of art kitchen and a spectacular patio terrace with a summer kitchen. The guest house includes a master suite with a living room and a separate staff apartment. A beautiful grass lawn garden surrounds the swimming pool while an attractive cobbled pathway leads to the garage and lower grounds. The property sits in the most sought-after luxury residential neighbourhood, offering boat tendering facilities plus internal access to Es Torrent Beach and a famous restaurant, just 15 min from the airport and Southwest Coast trendy beach clubs and 24/7 security.
