Description

Luxurious, restored villa with guesthouse and 5,500 sq.m garden. The villa, which has 4 floors, measures around 794 sq.m in total and has spacious, impressive living areas, 4 bedrooms and 6 bathrooms. The guest house, which has only one floor, measures around 30 sq.m in total. With terrace and stunning panoramic view of the lake. Situated in a hilly location, just 10 minutes' walk from the centre of Stresa, while surrounded with woods and gardens, this Art Nouveau villa on Lake Maggiore is a luxury residence dating from the late 1800s, with a magnificent panoramic view of the lake with which it shares its name, one of the most beautiful in Italy. Stresa is situated on the western shore, overlooking the picturesque Borromean Islands. Its attractive location, combined with the mild climate, has made it a well-loved tourist destination since the mid-1800s. Every year, Lake Maggiore attracts visitors from around the world, who fall in love with the natural beauty of the area, the splendid, impressive fortresses and castles that rise up around the lake and its 11 islands, and with the opportunity to do all kinds of sport, surrounded by nature. The villa is situated around an hour's drive from Milan (84 km), Novara (62 km), and Varese. The nearest airports are Milan Malpensa, 50 km away, and Milan Linate, 106 km away.
