An exclusive collection of 1 and 2 bedroom apartments that embodies the distinctive style of this desirable London village. The apartments are luxurious and stylish with balconies, open plan living spaces, expertly crafted kitchens and high quality finishes. West Hampstead Central fuses local heritage with contemporary design and vision to create a unique place that caters for today's lifestyles. The design is inspired by the area's elegant vernacular of mansion blocks. The red brick façade and aluminium windows echo the simple colour palette, repeated shapes and proportions of the local architecture. Areas of brick pattern add detail, while the balconies echo the wrought iron railings synonymous with the local area. The design of these apartments embrace the future, with thoroughly modern building techniques for greater energy efficiency and sustainability. Natural light is maximised with expansive glazing to each apartment. The thoughtful design continues outside, with attractive landscaping creating two tranquil green spaces. The courtyard garden is a calm, enclosed sanctuary, featuring shrubs, trees, plants and lawned areas, with pathways and seating in natural materials. After a day in the city, residents can unwind in its serene atmosphere.
