Description

The perfect little gem This is a fantastic piece of property. It is 1.2Ha and greatly positioned. The view is amazing, it is hidden in the Harties bushveld, but still close enough to the convenience of life's daily needs. It currently has a main house that has creatively been made up of 2 double decker busses, which consists of 4 bedrooms, 2.5 bathrooms, 1 kitchen, 1 lounge and 1 dining room. The view from the patio of the Magaliesberg Mountains is captivating. The patio then leads out into a beautiful garden, which surrounds the residents and the rest of the property is open land. There is a flatlet for that extra income. There are 4 carports, 2 domestic quarters and 2 wendy houses for storage. There is a workshop and a built in braai. There is also no need for bottled water, as there is an endless supply of drinkable water from the borehole. The potential to develop this property is endless!
