Description

Beautifully updated 3 bedroom, 1.5 bath, with a two stall garage just a few blocks for the medical mile. The owner just added a 23' x 16. cement patio which greatly expands the outdoor entertaining area. Inside they have just added a new gas stove, upper cabinets in the kitchen, several new lights and a ceiling fan, along with all new flooring on the main floor. Then they remodeled the dining room and pantry cabinet. And just when they completed all this they found out they are being transferred out of state. What a great opportunity. Newer windows and a 2 year old furnace. Laundry room is upstairs with the bedrooms.

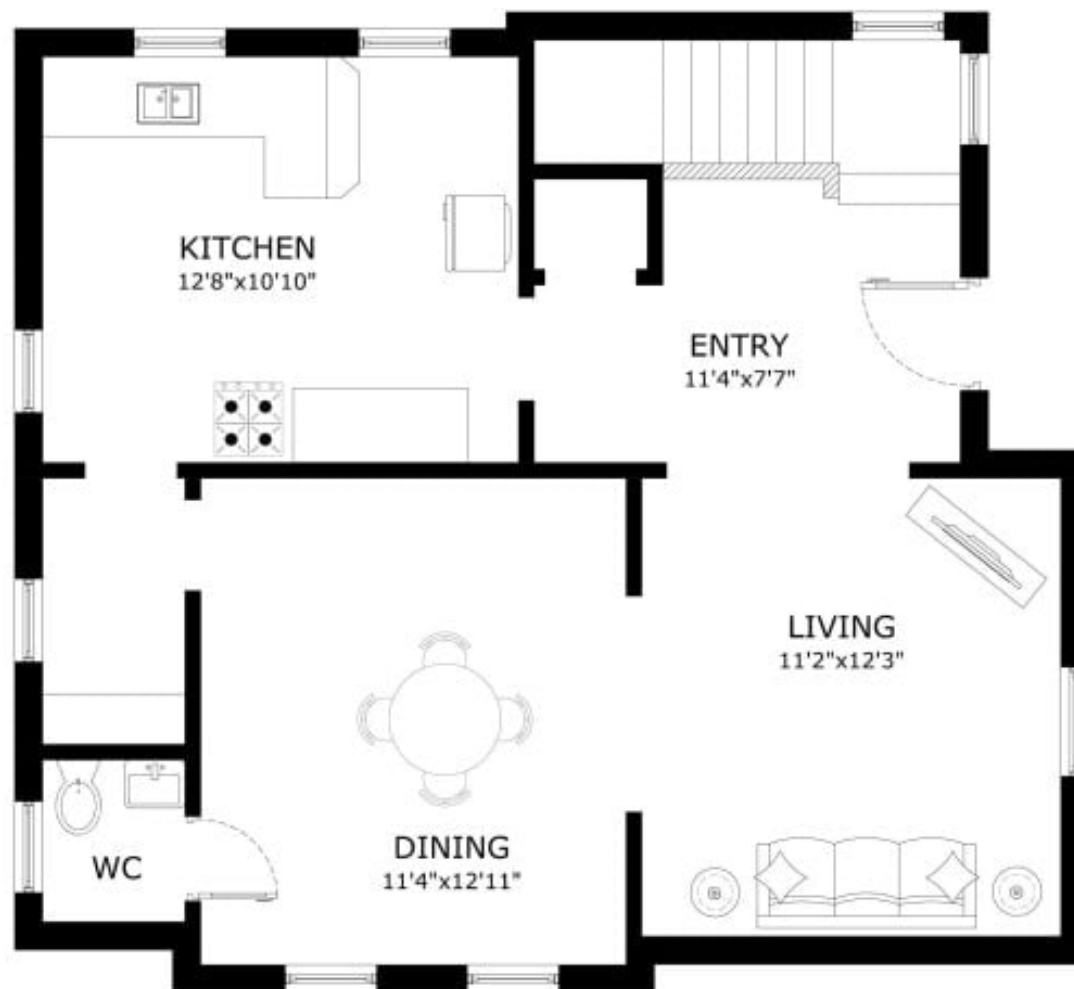

First Floor = 696 Sq.Ft
Second Floor = 731 Sq.Ft
