Description

An interesting combination of properties in a peaceful location. A collection of three properties, each with its own grounds, located in a peaceful countryside location between Sidari and Peroulades. The houses look out over lush green hills and olive groves. Property 1A fully renovated two bedroom house, it is ready to move in with double glazed windows and central heating. Property 2A traditional one bedroom house, in need of modernizing. These two houses are in a plot of 659m², with an adjoining olive grove of 6737m². Property 3A large old barn in a 4000m² plot. This property is in need of total renovation and could be turned into a splendid farm house. Two wells in the garden supply plenty of water to the properties. An interesting opportunity with lots of potential to create a small business in an area not too far from the beach.
