£1,080,000
(€1,250,000)

Description

A spacious five bedroom property in immaculate condition, with lovely sea views., this is a beautiful property. With dramatic sea views and across to the Albanian mountains, this lovely villa is very impressive. Built over three floors, the main entrance leads into a large living area with windows looking over the terrace and swimming pool and out to the view beyond. At one end of the living room is a fireplace, and at the other end is the dining area. To the side of the dining area is a pretty kitchen, with modern but traditional style units and a patio window leading out to the terrace. A beautiful marble staircase leads up to the first floor, where there are three double bedrooms. All the rooms have beautiful sea views, and the master bedroom has an en-suite bathroom. The other two rooms share a large family bathroom. All the floors throughout the house are solid oak, and the windows are UPVC double glazed. With full central heating , the house is an ideal year-round home. In addition to the main house there are two guest suites, constructed on a level below the swimming pool. These two rooms have separate access, reached by stairs leading from the pool level. Each is very comfortable, with a large bedroom and bathroom, and the larger of the two has a small sitting room. The house has been designed to take advantage of the fabulous view, with lots of terraces and outside seating areas. The large pool has a roomy sunbathing terrace, and overlooks the garden below. Well worth viewing, this fabulous property has tons of charm and character.
