Description

An impressive luxury property, located in a peaceful surrounding with unique features inside and out. The beautiful villa is split into three levels, the driveway leads to the upper level, which is the main living area for the villa, offering a separate modern kitchen with appliances, large cozy lounge with wood burner, dining area with incredible views and secondary raised space, an extension of the lounge with its 150 year old grand piano. On this floor is also a WC just off the entrance. The entire floor has double glazed French doors onto extensive balconies with views over the swimming pool, across the countryside and down to the sea. The marble stairs elegantly wind down and around the villa's most interesting feature on the central floor, a giant marble chessboard. This level has 3 double bedrooms, all with en suite facilities and fitted wardrobes. The master suite has 'walk in' wardrobes and a magnificent en suite bathroom with separate shower. The second bedroom has a large covered balcony and the third bedroom has its own covered veranda plus a private garden, and independent access. On this level is a fully equipped gym and a state-of-the-art cinema room. The lower level opens on to the pool terrace through a corridor. Three more beautiful, en suite bedrooms are through this hallway. The swimming pool is 77m² and views from the pool terraces stretch down to the sea. The grounds surrounding the villa are pathed and paved, with a wide variety of trees and shrubs, including olives, palms, lemons, figs, pomegranates, vines, cypresses, bougainvillea and other ornamental plants. All rooms are equipped with high speed Starlink internet access, telephone points, solar water heaters, air-conditioning units are installed, and a heating management system is in place. The entire property, inside and out has been refurbished to the highest standards in 2023, breathing new life into its once tired state. The house is 5 minutes drive from the International Marina at Gouvia, 15 minutes from Corfu Town and 20 minutes from the Airport. Large supermarkets only 5 minutes away, and a choice of beaches are also within a short drive.
