Description

Set into the tranquil San Rafael Hills neighborhood awaits a beautiful 4 bedroom, 3 bath mid-century home with incredible floor to ceiling windows showcasing the panoramic views of the San Gabriel Mountain Range. Upon entry you'll find a spacious and comfortable main living area that flows nicely between the living room, dining room and kitchen which has an attached laundry room and the first bathroom. A long covered porch area provides easily accessible outdoor space to step outside and enjoy the amazing views. Down the hall and separate from the main living area are three nicely sized bedrooms with sizeable closets and the main bathroom which will charm your day with its classic pink tile. The primary bedroom also has a door leading back out to the covered porch area. Off of the kitchen there is a door leading to the internal staircase where you'll arrive at the fourth bedroom and the third bathroom. This room is well suited for guests with its own private entrance from the backyard or it can also make a great office which is how it is currently being used. Down the staircase you'll also find the large two car garage which provides a ton of storage space and has direct access into the home. From the garage or from the rear of the home you'll find the bonus room with french doors leading to the incredible backyard area. This flex space could be used as an additional guest space, rec room, home office and/or exercise room. The possibilities are endless but one thing is certain, there is plenty of space for all in this wonderful home! Click here for a virtual tour: <https://tours.previewfirst.com/ml/140997#threed>
