Description

Custom lakefront home in Foxmeadow, Middleburg's premier estate lot neighborhood. On over an acre, home sits on high and dry lot with 4 car side-entry garage, plenty of space for a boat or RV and a large backyard with access to Foxmeadow's big lake. Home has a new roof, full gutter system and well-maintained landscaping. Inside, the home's features don't disappoint. Wood floors, crown molding, remodeled bathrooms (2019), remodeled kitchen (2018) and a huge addition. Let me say this addition makes this home extra special, designed perfect for entertaining with pool table, a live edge 200 year old cypress bar top, copper sink, huge entertainment center, wide open area with access to the third bath and then opens to the backyard which also has a 30'x6' porch to enjoy the backyard and lake view. Master bedroom has separate closets, jetted garden tub. The kitchen features KraftMaid cherry cabinets, Kitchen Aid appliances, Bosch dishwasher and quartz countertops. Upgraded electrical panel to service all the upgrades, A/C has a 4 zone climate control system. Surround sound system in room addition as well as a beer and wine fridge. Outside some other features include a widened driveway, custom mailbox, stacked stone exterior and zero-scape landscape. Please review the feature sheet in the document section for anything I missed here. The garage is an over-sized garage as well, totaling over 1,000 sqft of space and the front portion is also heated and air-conditioned as well.
