Description

Because houses are seldom available for sale here, I had forgotten how attractive Eagle Crest is. This reminder is most welcome! 375 Wales backs up to a dramatic, heavily wooded strip that seems unlikely to change. How these folks designed the outdoor space adjacent to this whimsical forest is nothing short of perfect. Inside, the floor plan on the main level is ideal for festive gatherings: a big living room w/ a gas fireplace that flows to a big kitchen w/ a generous island. The appliances are newer & there's new flooring on the main level throughout. The primary BR is extra large w/ a sizable walk-in closet. Two of the additional three bedrooms overlook the forest. I'd be remiss not to mention the convenient location.
