Description

A spacious, contemporary villa with two swimming pools, in a central area not far from Gouvia Marina. This impressive property is situated close to the famous Danilia village, not far from the marina at Gouvia and Corfu Town, in a very peaceful countryside location. Electric gates lead into the property grounds where there is ample parking for several cars. The grounds are mainly laid to lawn, with stone walls ensuring complete privacy. The villa is spread over 3 floors and the attic. On the lowest level there is a large indoor heated swimming pool with a glamorous lighting feature and fountains. There is also a gym and sauna with a shower room. Wide patio windows lead from the pool out to the garden and terrace surrounding the outside swimming pool. The garden has been landscaped and there is plenty of space for sunbathing. Here is also a fully fitted outside kitchen and dining area. The main entrance to the villa leads up a few steps into a spacious hallway leading into either the kitchen or one of the sitting rooms. The kitchen is modern and minimalist, with black cupboards and solid wood worktops, and overlooks the garden. An enormous sitting room and dining room has huge windows overlooking the garden and pool. Also on this level are three good sized double bedrooms, each with an ensuite shower room. These rooms exit onto covered terraces overlooking the grounds. A flight of stairs leads to the third floor where there are a further two extra-large bedrooms, each with their own luxurious en-suite bathroom and a fireplace. Each room also has access to the attic bedrooms, making them ideal family suites. In between the bedrooms is a comfy sitting room and another fully fitted kitchen. The whole house has been designed with luxury and opulence in mind; the perfect venue for large family gatherings or celebrations.
