Description

This classic brick ranch is located in the established Kingswood community on three quarters of an acre. Inside this recently remodeled, wonderful home you'll find wood floors, soft paint colors, and lots of living space. Just through the front door is a welcoming foyer that opens up into a living room nestled in the front of the house. Off the living room is a cozy dining room with plenty of space and drop-in lighting. In the back of the house is the charming kitchen with appealing custom cabinets, wood shelving, an island with a butcher block counter and bar seating. The spacious great room is situated in the heart of the home and offers an oversized brick fireplace, recessed lighting, and access to the gigantic, covered back porch. The considerable laundry room hosts lots of cabinets, clothes hanging rod, and a large sink. Each of the three main level bedrooms provide bright lighting and ample closet space. Downstairs in the basement is a substantial den area, another room that could be a guest or teen suite, and a full bathroom. Also in the basement, you'll find storage space galore to store whatever is you need. Huge fenced rear yard also features a wooden storage shed. Located within two miles of multiple eateries, shops, and grocery stores. Less than 10 minutes to US-78 and 316.
