Description

Few properties come to the market with so much to offer! First, the location is convenient to shopping, restaurants, parks, and highways. Second, this 2-family home has been beautifully updated to offer style and amenities rarely found all in one place at this price. Third, you could live in one unit while the other is rented, bringing a facet of afford-ability to this gorgeous property. The third floor could be a bedroom or a den with a vaulted ceiling, a half bath and knotty pine walls This property was a full rebuild in 2006-2007 that included new kitchens and baths, new hardwood floors, tile floors, furnaces, hot water tanks, electrical, and windows. This large lot runs from Greenman to Walcott with a recently updated 2-stall garage and carport accessible from Walcott.
