Description

FARM CLOSE TO TOWNThe perfect location. Very close to town and this farm is just perfect. The potential is endless. Very close to the main turn off on the R101. This 24 hectares can become so much. Farming with the amount of water that is available, will work well. Turning it into a guesthouse close to town will also be perfect. Or to come and run your business from it, the space is there. The property has a flatlet and a big house with lapa and swimming pool. Warehouse and offices. All the buildings need serious TLC but the structures are good. The property has three boreholes. Water is no problem. Don't miss out on the piece of land so close to town.
