Description

A beautifully finished stone house, currently set up as 2 maisonettes and an easy walk to the beach. Wave is within a couple of minutes' walk of the lovely sandy beach of Paramona, just a 5-minute drive from the all-year traditional village of Agios Mattheos and all its amenities. The property is currently set up as 2 maisonette-style apartments but with some reconfiguring could offer a lovely and comfortable family home. The owner has built Wave using traditional stonework as the main feature which is then complimented by hand-crafted wood fixtures. One of these hand-crafted features is the staircase leading up to the bedroom can be folded upwards leaving a clear living area. The main living area is open plan with living/dining and kitchen and in the corner and an open fireplace. Although no heating is currently installed all the pipework is ready in the floors for radiators to be added. Downstairs there is also a WC and wetroom/shower room at the back of the house with a back door to the rear of the house and parking area. Upstairs on the mezzanine level there is a double bed with one wall of built-in wardrobes and then a bathroom with a full-size deep bath. There is also space here for a desk or "office space" with stunning views over the sea and to the sunset. Outside there is ample parking all around the house, a well-maintained pretty garden and built in BBQ area. Paramona is very popular with those wishing to get away more from the crowds yet still have access to a lovely beach and hikes etc. Agios Mattheos is the closest village with all amenities such as supermarkets, cafes, tavernas etc.
