Description

In the heart of the antiques district, nestles a sublime Hôtel Particulier with five floors spread over 349.16 m². This confidential gem perfectly combines sophistication and comfort in a unique contemporary setting. A private elevator and a staircase adorned with a majestic sculpture by artist Jean-Michel Othoniel give this property a unique character. On the first floor, an entrance hall with fireplace leads to a small night lounge, which in turn leads to a large lounge-library. On the second floor: an open-plan kitchen, an adjacent dining room and a large living room offer extraordinary ceiling heights of ten meters. On the second floor: a beautiful master suite with dressing room and spacious bathroom. The top floor features two large bedrooms and a bathroom. The basement is completed by a lounge leading to a hammam designed in the original vaulted cellars. A further level could be added to create an unoverlooked outdoor space.
