Description

Back on market at no fault of the seller! Originally built by a builder as his personal home, this beautiful property is located on almost a half acre landscaped lot across from the popular Back 40 Trail and close to all Bella Vista has to offer. The newly remodeled kitchen makes entertaining a breeze and the large open living area provides ample room for family gatherings. Enjoy summer evenings sitting out on the new composite deck watching the abundance of songbirds (including tons of bluebirds!) or gather around the fire pit with friends on cool fall evenings. The front and back yard offer a large variety of beautiful perennial flowers, crepe myrtles and a butterfly garden that will be the envy of your neighbors and friends. A workshop/storage area is located in the walk-in crawl space area. OVERSIZED 2 car garage with ample parking for RV's is located on the privacy fenced enclosed side yard. Pride of ownership is evident in this home. Don't miss the chance to call it your own!
