Description

This beautifully maintained 3-bedroom, 2-bathroom home offers a perfect blend of modern upgrades, elegant details, and sustainable living. The spacious living room features Andersen bay windows, while the stunning gourmet kitchen boasts upscale appliances, quartz countertops, and a large island. A versatile first-floor office can easily be converted into a fourth bedroom, and French doors throughout add a touch of elegance. The home includes a luxurious primary suite with cathedral ceilings, a walk-in closet, and a spa-style bathroom featuring an oversized soaking tub, a glass rain shower, and heated floors. The second-floor bathroom is equally stylish with a sleek glass shower. High ceilings enhance the open feel of the home, while a four-season sunroom with a transferable lifetime warranty ensures year-round comfort. Outside, the oversized upper-level Trex deck is perfect for entertaining, offering stunning views of Long Beach's Fourth of July fireworks, and the expansive brick patio with bluestone adds even more outdoor living space. Additional features include an EV charger, a whole-house water filtration system, a mini-split ductless AC and heating system, and a natural gas generator for backup power. With a new roof (2021), updated kitchen and bathroom renovations, basement waterproofing, and new siding, this home is move-in ready with top-tier modern conveniences. Plus, **fully paid-off solar panels with PSEG net metering keep electricity bills under \$30 per month**, making this home as energy-efficient as it is beautiful. Combining timeless charm with eco-friendly efficiency, this is a rare find you don't want to miss!
