Description

An exquisitely renovated three bedroom apartment in the heart of Corfu Town! Completely renovated in 2024 to an impeccable standard and professionally interior designed, this lovely apartment is located on the third floor of a 500-year-old Venetian merchant's townhouse in one of the city's most prestigious neighborhoods. It is located just steps away from St. Spyridon Church, The Liston, Spianada Square, the Museum of Asian Art and its gardens, and only a 5-minute stroll to Faliraki Beach. Covering 136m², this spacious residence combines timeless elegance with contemporary comfort. The layout includes a generous living and dining area featuring a decorative fireplace, opening via French doors onto a long terrace with panoramic rooftop views over Corfu Town and glimpses of the sea. The fully equipped kitchen features top-tier appliances, while two luxurious bathrooms include walk-in showers—one also offering a stand-alone bathtub. There are three beautifully appointed bedrooms (one with a decorative fireplace), and from its elevated position, the apartment captures glimpses of nearby landmarks, including the Venetian Fortress and St. Spyridon Church. All modern facilities have been added to the property, such as A/C (heating and cooling) in every room, underfloor heating in the bathrooms, Smart TVs in the living room and bedrooms, high-speed internet and top of the range electrical appliances. It is being sold fully furnished. The apartment is currently used as a luxury holiday rental property, but would also be suitable for year-round living in the centre of town.
