Description

Incredible opportunity to own a magnificent 1900 Victorian that has been tastefully updated while maintaining its original character and timeless architecture. Perfectly situated mid-block, this home features a long blacktop driveway that stretches from the street to your two-car detached garage with electric and a bonus extension, perfect for a billiards room, home office, or creative studio, along with its own front door for convenient access to the garage. Enter the home through the sun-drenched front sunroom, a one-of-a-kind space lined with thirteen floor-to-ceiling windows that flood the room with natural light and allow for refreshing breezes. From there, step through the solid hardwood front door into the interior where a formal dining room awaits, boasting hardwood floors, custom millwork, chair rail, intricate woodwork framing each window and doorway, and a brick fireplace flanked by built-in bookshelves and two picture windows with black etched glass. The enormous formal living room flows seamlessly into the dining area, highlighted by a glass chandelier and one-of-a-kind doorway molding. The chef's kitchen offers oak cabinetry, black appliances, abundant counter and cabinet space, wainscoting, and direct access to the rear yard through a charming Dutch door reminiscent of classic Victorian design. Upstairs you'll find three spacious bedrooms, including an oversized primary suite with ceiling fan, sconces, elegant ceiling and window moldings, and solid wood Victorian doors with original hardware. Additional bedrooms are generously sized with ceiling fans, while the full hallway bath features a tub, shower, and skylight. The home is complete with a full basement, updated eight-year-young roof, and a hot water heater installed in 2019, along with a brand-new forced hot air gas system, offering comfort and efficiency. This rare Victorian treasure is being sold as-is, ready for its next owner to enjoy the perfect blend of historic charm and modern convenience.
