Description

St. MaryThe story began with one captivating look at the vast endless sea of turquoise and blue. The dream came together with the design and construction by one of Jamaica's most talented architectural teams, the Ann Hodges lead Kingston 10 Architects, specialist in capturing the Jamaican architectural landscape, featuring expansive verandahs and lush green surroundings. We proudly offer Poinciana Bay - your enchanted beach home. Set on over 2 acres of lush gardens overlooking a private beach, is this 1000 sq ft ground floor apartment. Come and enjoy the pool, or work out in the private gym and enjoy 365 days of lounging on the secluded beach, all with the peace of mind of 24 hour security. Now is the time to become a part of the Jamaican story of owning a beach front get-away. This is a must see and a must own.
