Description

This solid brick home has plenty of space and a layout that works for just about anyone. With 4 bedrooms and 2.5 baths, there's room for the whole crew. The main floor features a large living area in the front of the house and a generous size den off the kitchen so you can cook and talk to the kids or guests. The kitchen area flows right out to the back deck through French doors-perfect for relaxing or hosting get-togethers. There's also a generously sized room downstairs that's currently set up as an office, but it could easily be a guest room or even a main-floor bedroom for Mom and Dad. The backyard is flat and ready for fun-add a pool, play area, or garden and make it your own! Plus, the basement is full of potential and can be finished to create even more living space. Great location, too-close to restaurants, shopping, Rte. 22, the Parkway East, and more. This home offers comfort, flexibility, and a lot of opportunity to make it yours.
