Description

A covered front porch welcomes your guests! This spacious 4 bedroom, 2 bath home has a versatile floor plan and endless potential! The original part of the home was built in 1937 and moved further back on the lot with the addition added in 1971. The slate foyer opens to the living room with pocket doors to the dining room. Family room has a wood burning fireplace to enjoy on chilly days. The laundry room is conveniently located off the kitchen. The primary bedroom includes a full bath. The second bedroom, hall bath and office complete the first floor. Two additional bedrooms, loft space and storage are located on the second floor. The unfinished basement offers extra high ceilings, perfect for finishing for more living space and has an additional staircase leading to the garage. Features include a two car attached garage, an additional one car detached garage and outbuildings for storage or hobbies. Outside, enjoy the patio and perennial flower beds and mature trees. This estate sale home is being sold as is and is ready for your vision and updates.
