Description

Queen Magdalene Court - St. Croix Located in the heart of Christiansted on the corner of Queen Street and Queen Cross Street, this double condo can be used as one, or split into two. There's a connecting door which separates the condos. Since it's on the 3rd floor, the view is beautiful and includes the sea, historic buildings, and the lush pastoral hillsides which frame the town. Breezes flow through the unit, but there's a mini split air conditioner for those non-breezy summer months. A locking security gate on street level allows the condo residents access. With just a little tile work to complete in one shower and some TLC, this condo is perfect for anyone wanting to live downtown Christiansted for restaurants, shops, and special events!
