Description

Welcome to this solid brick semi-detached home offering 3 spacious bedrooms and 2 bathrooms across 2,008 square feet of comfortable living space. Step inside to an updated kitchen and bathroom in the main living area, perfect for modern living. The finished basement provides a fantastic opportunity for multi-generational living, featuring its own kitchenette and private entrance for added flexibility. Enjoy the beautiful backyard, ideal for entertaining guests or cultivating your own garden. A private driveway adds everyday convenience to this already impressive home. Neighborhood amenities include easy access to parks and green spaces, public transportation, shopping centers, health and wellness facilities, and diverse dining options. With the recent updates to the house, it now serves as a blank canvas for its new owners to bring their own personal touches and style. The fresh paint and new lighting in the walkout basement create a bright and inviting space that can be transformed into a cozy family room, a home gym, or a creative studio. The modern light switches throughout the house provide convenience and functionality, while also allowing for customization with different fixtures and decor. Don't miss your chance to make this wonderful property and dynamic, diverse neighborhood yours-schedule a viewing today!
