Description

Walk to the community pool or skip across the street to the Razorback Greenway! This new construction, 5-bedroom home is bursting with curb appeal and includes an oversized 3 car garage with the third bay deep enough for any of your toys or for extra storage. Hang out in the living room with an impressive 20-foot soaring ceiling and open to the kitchen and dining area. The primary bathroom feels like a spa with two shower heads and a bathtub in a dedicated wet area with a linear drain. Some other features include 3 cm quartz counter tops throughout, custom cabinets with soft close drawers/doors, Frigidaire Gallery appliances (cooktop vented to the exterior, & wall oven/microwave), custom powder coated handrails on the stairs, tiled shower surrounds in the other two bathrooms, custom mirror frames, low-e windows, fence, blinds, gutters, & an irrigation system. Did I mention you can pick colors if they're available. We have some preferred lender incentives with local lenders up to \$5,000 as well.
