Description

Start your new year in a meticulously maintained 3-year-old brick home with a 2-car garage! This home was built in 2022 and has about 2,700 square feet with 5 bedrooms and 3 full bathrooms. It is located outside of city limits in the quiet and highly desired Charleston Place Subdivision off Lake Silver Road. Its split bedroom, open flow, and covered porch are waiting for new memories to be made! When you enter the foyer, you will find the first 2 bedrooms on the right with a Jack and Jill bathroom, and a formal dining area to the left. Further into the home, you have the kitchen with granite countertops, a breakfast bar, and ample cabinet space that is open to a large living area. To the right, you'll find the master suite, which has a large walk-in closet, a nook perfect for a sitting area, and a bathroom that has a separate garden tub and shower. Past the kitchen is the laundry room, 2 more bedrooms, and the third bathroom. Coretec Pro-Plus flooring is all throughout the main living areas, with carpet in the bedrooms. Outside, you will find a large covered back porch perfect for entertaining guests or enjoying the sunset while drinking coffee. The yard was fenced in 2024 and is stained and sealed. The house boasts new gutters that blend in perfectly with the aesthetic of the home. The front yard has a rock bed for some great curb appeal and minimal maintenance. The wide-open front porch is covered just waiting for some rocking chairs to enjoy the peaceful neighborhood! The Arlo security system and the garage overhead storage rack will convey. The only thing that can make this house better is the 4.5% assumable VA loan (for VA qualified buyers)
