## Description

A hidden gem, a stone's throw to the beach, a wow property! Must be seen in person; pictures do not do it justice. Only 700 feet to the beach on a quiet street just moments from the brand-new Naples Beach Club Four Seasons Resort, this custom single story home blends timeless Naples elegance with modern luxury. Built in 2017 and impeccably maintained by its original owner, the residence has remained dry through past weather events and reflects exceptional stewardship. Rare for this proximity to the beach, the home includes a three-car garage on almost a third of an acre, a newly renovated chef's kitchen with Sub-Zero and Wolf appliances, and a private butler's pantry. Smart home integrations include Savant technology, Lutron lighting, automated storm protection, generator, and dual tankless water heaters. Legno Bastone oak flooring, custom cabinetry, and refined millwork create a warm coastal aesthetic highlighted by abundant natural light. The primary suite provides a serene retreat with its own morning bar and direct access to the pool and spa. Each private bedroom suite is distinguished by its own beautifully finished bath, distinctive ceiling design, and substantial closet space. Outdoors, enjoy a lap pool, spa, beach shower, and a fully equipped summer kitchen ideal for entertaining. Situated on a discreet private street in one of Naples' most desirable beachside locations, this is an exceptional opportunity for buyers seeking the best in coastal luxury living without going vertical or worrying about flooding. The thoughtful layout exceeds expectations. A private tour is the only way to truly appreciate the volume and flow of the living spaces.
