## Description

This deceptively large house is in a great location, being close to the facilities of Kato Korakiana, but in a quiet residential area. With 5 bedrooms and 3 bathrooms it offers plenty of accommodation. In an elevated position above the road, this house has lovely views across the channel to the Albanian coastline. A short drive to the facilities in Kato Korakiana, the location is very convenient. At road level, there are two garages, and steps leading up through the garden to the front door. However, there is another access from the rear of the property into a large parking area and a slope which leads to the door at the back of the house. Entering into a hallway from the front door, to the left there is a spacious sitting room with windows facing the front and side of the house. There is an open fireplace as well as a wood burning stove for cozy winter days. One step up to another level is the dining area, separated from the kitchen at the back by an archway. The kitchen is fully functional, but would benefit from some updating. Behind the kitchen is the master bedroom, with windows to the rear and lots of built in wardrobes. This room also has an en-suite shower room. To the other side of the hallway are two double bedrooms, one at the front and one at the back. Both are good sized and have plenty of storage. Between them is a large family bathroom. A wooden staircase leads up to the first floor to two large rooms. Each room has patio windows leading onto a very large balcony, from which to enjoy the lovely sea and mountain views. One of the rooms has an en-suite shower room. At the back of the house is a very useful storage room which houses the central heating system and also has a small kitchen and laundry area. The garden surrounding the house has been landscaped and on top of the garages there is a large terrace. There is plenty of space for the construction of a swimming pool
