Description

Two fireplaces, hardwood floors, a gourmet kitchen and multiple living spaces give the true feeling of "home". So many upgrades in this single-level home while still maintaining its original charm. The primary suite features a double travertine shower, separate soaking tub, and even a night light under the vanity, while another 3 bedrooms and 2 baths are on the opposite side of the home. The large island in the open kitchen is the perfect gathering spot. You'll be spoiled with the convenient location yet won't hear a thing with upgraded sound dampening windows. The fully fenced back yard has been lovingly maintained... spring will bring many beautiful blooms. A must see!
