Description

Nestled in the peaceful country setting of Green Acres, this exceptional 2,700+ sq ft home sits at the end of a quiet cul-de-sac in a welcoming neighborhood with spacious lots and plenty of room to roam. Step inside to an open floor plan filled with natural light streaming through large front windows. Designed for flexibility, the third bedroom functions as a private secondary suite complete with its own living area, dining space, kitchen, bath, and parking, ideal for multi-generational living or guests. Between the primary bedroom and secondary suite, you'll find a spacious four-season porch perfect for year-round relaxation. The acre lot invites you beyond the back fence, where the land has been left natural --and wildlife, including peacocks, are regular visitors. Thoughtful extras include a cozy wood-burning fireplace, rain capture tank, well-fed sprinkler system front and back, RV parking, and fully paid-off solar panels that help keep electric bills low.
