Description

Set in one of the most sought-after pockets of Carver Bluffs, this exceptional home combines privacy, space, and community on one of the neighborhood's larger lots, with no homes ever to be built in front of or behind it, preserving peaceful views. Enjoy main-level living with a two-story foyer, bedroom/office that can function as a private In-Law suite with its own entrance, walk-in closet, and patio, plus main-floor laundry, refinished hardwood floors, and cozy fireplaces on both the main and lower levels. The walkout finished downstairs offers a bar, generous living space, private bedroom, bathroom, and a slider to its own patio, complemented by huge basement storage. The house includes an oversized heated three-car garage with lofted storage, two working doors, and an exterior entrance. Mature trees, an electric pet fence, and a large usable yard create a versatile outdoor setting with a screened porch, expansive deck, walkout patio, and above-ground pool for gatherings and everyday enjoyment. Just down the hill, a neighborhood trail runs along the river into town, connecting to Carver's new bridge, additional bike trails, coffee shops, bars, and routes extending toward Chaska, while nearby amenities such as the Carver Highlands Wildlife Management Preserve, the dog park and pickleball courts make this one of Carver Bluffs' most desirable locations. Recent upgrades throughout and a primary suite with dual vanities, jacuzzi tub, and separate shower complete the picture, offering a turnkey Carver lifestyle that rarely comes to market.
