Description

\$5,000 TOWARDS BUYER'S CLOSING COSTS! LUXURY ENTERTAINING MEETS MULTI-GENERATIONAL LIVING! Indulge in this massive 5-bedroom, 3.5-bathroom home with more amenities than many others in the area, including a private movie theatre/media room with surround sound and crisp Klipsch speakers. The grand entry with vinyl flooring includes a huge flex space for formal dining, crafts, an open office, or many more opportunities. Step into the heart of contemporary living with the kitchen that merges elegance, efficiency, and functionality; featuring stainless steel appliances, granite countertops, double ovens, complimentary backsplash, and large pantry. The modern open concept home gives easy access to the breakfast nook and incredible living room with handsomely trimmed fireplace. Create a boutique-hotel style area in the second primary bedroom downstairs with a private bathroom. Upstairs, you will be welcomed by great loft followed by the relaxing theatre room with wet bar/snack area and mini-fridge. The primary bedroom is just off to your right with a luxurious feel highlighted by the double door entry and sitting area. You won't be short on space in the exclusive bathroom with a separate shower and impressive walk-in closet. Also upstairs are the three additional bedrooms and built-in mini-office/homework space. The sprinkler system's interface has been upgraded so you can conveniently operate it via a mobile device. Now, how many others you know can do that?! Mounds have been strategically placed and will be left for you to easily hang your television, and the Ring doorbell system has been upgraded. This home is greatly positioned on an interior lot where there is no other home's front door facing it and no neighbors directly behind, allowing a less crowded feel. Come out and fall in love with this masterpiece that is sure to please. Located near easy access to shopping and dining, and only about 15 minutes away from the drive to Fort Hood.
