Description

First time on the market in 73 years! Offered for the first time since it was built in 1953, this charming single-story traditional Temple City home reflects true pride of ownership and timeless appeal. Located in a desirable Temple City neighborhood, this residence features 4 spacious bedrooms and 1.5 bathrooms, offering a comfortable and functional floor plan. Inside, the home showcases hardwood floors throughout most living areas, recessed lighting, newer dual-pane windows, fresh interior paint, and central air and heat. One of the four bedrooms is generously sized and ideal for use as a primary suite, while another bedroom is currently used as an office. One bedroom features brand-new carpet, with classic hardwood flooring throughout the remainder of the home. The bathrooms have been remodeled over the years and include tile flooring, updated cabinets with sinks, new toilets, and a beautifully upgraded bath with a walk-in shower and a soaking tub with jets. Additional upgrades include a new roof installed in September 2010. The kitchen is a great size, featuring oak cabinetry, stainless steel appliances, and a convenient door that leads directly to the backyard. A laundry area is located adjacent to the kitchen for added convenience. The spacious family room is filled with natural light from large windows and flows seamlessly into the dining area, creating a warm and inviting space for everyday living. Step outside to a well-manicured backyard ideal for entertaining, complete with mature fruit trees, a covered patio for summer days and evenings, and convenient alley access. The beautifully landscaped yard enhances both the charm and functionality of the property. Conveniently located within walking distance to an elementary school, this is a rare opportunity to own a lovingly maintained home that has been cherished by the same family for generations.
