Description

A welcoming place in Northwest San Antonio, this two-story townhome offers more space than expected, thoughtful updates, and a comfortable layout designed for everyday living. Laminate flooring throughout the home provides a cohesive and low-maintenance finish. The large living area is a separate space from the kitchen and dining areas and is accented with elegant wainscoting that adds architectural character. The kitchen and dining areas are open to each other, with the kitchen featuring granite countertops, a modern backsplash, and a newer sink and faucet. The dining area continues the wainscoting detail, creating a polished and consistent design. All bedrooms are located upstairs, including a primary bedroom positioned apart from the secondary bedroom. The primary suite includes a generously sized walk-in closet for the home's footprint. The primary bathroom features a single vanity separated from the upgraded walk-in shower and commode area. Outdoor space includes a fenced concrete patio, providing a private area to relax outdoors, along with a fenced front yard featuring a white picket fence. A detached one-car garage offers enclosed parking and storage-an added benefit in the community. The home is also equipped with a newer HVAC system, approximately one year old. If you're looking for a townhome that feels open, comfortable, and easy to enjoy, this one is worth seeing in person.
