Description

This older style villa is all about the views! It has large airy rooms and space for the construction of a swimming pool. Built over three levels, the main house is on the upper two levels, with the most amazing wide sweeping sea view. Encompassing the Albanian and Greek mainland, and across the bay towards the south of the island, our photos really don't do the view justice! The house has been built by its present owners for their own personal use and is in immaculate condition, but with a few changes, would make a perfect holiday rental villa. A sweeping driveway leads up to the parking area, with space for 2 cars. From here the back door leads directly into the kitchen, fully fitted with modern units and with windows overlooking the garden. The kitchen is open plan with the dining area, which has large patio windows leading out to the spacious terrace. To the other side of the kitchen/dining room is the living room, also with patio windows onto the terrace. Behind the living room is a large utility area, leading into a huge bathroom, with a jacuzzi bath and a separate shower. Also on this level is the entrance hallway, approached by steps leading up from the road. The present owners tend to use the kitchen entrance as it is more convenient for them. Upstairs are four very large bedrooms, two at the front with access to a large terrace, and two slightly smaller rooms at the rear with windows overlooking the garden. In the centre of the two smaller rooms is a small shower room. There is plenty of space in all the bedrooms for the construction of en-suite bathrooms if needed. Outside the ground is mainly paved for ease of maintenance with flower beds surrounding the patio. There is plenty of room for the construction of a swimming pool. On the level of the road are three garages, one which could be utilised for the construction of a swimming pool. The property also has a large water storage tank underneath the patio, and has central heating pipes have been installed so that a system can be added at a later date.
