Description

We're thrilled to present this stunning executive estate, meticulously crafted by VR Custom Homes! Upon entering, you're greeted by a magnificent two-story foyer and the inviting warmth of white oak hardwood floors. Off the foyer, a versatile study/guest suite or in-law suite awaits. The adjoining en-suite bath features a beautifully designed custom tile surround walk-in shower and an expansive walk-in closet. You'll be captivated by the heart of the home, the gourmet kitchen, featuring custom shaker panel cabinets, a huge center island with quartzite waterfall countertops, top-of-the-line JennAir appliances, including a 30-inch refrigerator column, a 30-inch freezer column with cabinet panels, a 48-inch JennAir gas range, a built-in microwave drawer, and a Bosch dishwasher. The family room is a perfect gathering space, featuring a built-in wet bar, a sleek 56-inch linear fireplace flanked by built-in shelving. A triple slider door seamlessly connects the indoors to your screened porch, complete with stone flooring, and a charming stone-surround fireplace, ideal for cozy evenings. The luxurious first-floor owner's retreat offers a serene escape, and is adorned by an accent wall with custom wall trim. The adjoining spa-like bath showcases an oversized zero-entry shower with 2 rainfall shower heads and multiple wall sprayer jets, and a freestanding tub. The owner's enormous walk-in closet is surrounded by custom wood shelving, and built-in dressers. All wood work and interior trim were custom crafted with real wood on-site, and built to withstand the test of time. Upstairs, bedrooms 3 and 4 offer vaulted ceilings, share a buddy bath and have their own separate dressing areas. Bedroom 5 has its own private en-suite bath and large walk-in closet. Additional rooms include a home office, a game room, an exercise room, a powder room and ample walk-in storage.
