Description

This exceptional new-construction home offers more than 4,900 square feet of potential finished living space and presents a rare opportunity to shape your dream residence from the ground up. The thoughtfully designed layout includes 3,478 finished square feet across two expansive levels, with the option to complete an additional 1,165 square feet in the lower level for even more flexibility and space. The main level welcomes you with an open-concept Great Room, Kitchen, and Dining area, perfect for entertaining or relaxing in style. A dedicated office just off the front entry adds functionality for remote work or a quiet retreat. Additional main-level features include impressive 8-foot tall door openings that enhance the home's sense of scale, a generous walk-in pantry with counter space for prep, a practical and conveniently located mudroom, a guest half bath, and an impressive kitchen anchored by an oversized island with a prep sink. A full range paired with an additional built-in wall oven and a dedicated dining area further elevate the experience of refinement. With four well-proportioned bedrooms on the second level, the primary suite includes a private bath with a soaking tub, walk in shower and separate dressing room centered around a custom island for elevated storage. There is also easy access to a second level laundry room from the primary suite and main hall. The second full bath also includes a double sink, soaking tub and walk in shower serving the remaining bedrooms with ease. The lower level boasts 9-foot ceilings, and when finished, could add a fifth bedroom, fourth bathroom and large family room offering flexibility and room to grow. The garage offers ample storage, with the third stall featuring extended depth suitable for a boat, yard equipment, and space for a workshop. Positioned on a prominent corner lot in Inver Grove Heights, this stunning new construction offers the rare opportunity to personalize your future home.
