## Description

A statement in coastal refinement, this fully reimagined Corona del Mar residence captures elevated design, thoughtful craftsmanship, and peek-a-boo ocean views from its second level. Recently remodeled throughout, offering four bedrooms, four full bathrooms, and approximately 2,155 square feet of curated living space, all set on an expansive 9,122 square foot lot, a rare offering in the Village. Engineered wood flooring runs seamlessly underfoot, while York wallpaper introduces soft texture and dimension. Restoration Hardware lighting punctuates each room with warmth and sophistication, creating a cohesive, designer-forward aesthetic. Living area centers around a sleek fireplace and opens through French doors, drawing in natural light and coastal air. Outdoor spaces further elevate the property, offering a generous grassy yard framed by mature greenery and crisp white fencing, providing privacy and a true sense of openness rarely found in Corona del Mar Village. An upper-level terrace captures neighborhood vistas and peek-a-boo ocean views, creating a bright, sun-drenched setting ideal for morning coffee or evening gatherings. Clean architectural lines and thoughtfully placed planters enhance the simplicity of the space while maintaining its relaxed coastal feel. Kitchen is both architectural and functional, appointed with Crystallo quartzite natural stone surfaces, custom cabinetry, and fully integrated sinks. Rohl faucet and professional-grade appliance suite including Thermador refrigerator, range, and microwave, paired with a Bosch dishwasher, deliver performance equal to its visual appeal. Clean-lined peninsula seating anchors the space for casual gatherings and everyday living. Primary suite feels like a private retreat, complete with a spacious sitting area, freestanding soaking tub, and a spa-inspired shower wrapped in Taj Mahal slabs. Taj Mahal countertops continue the material story across custom vanities, while a fully built-out custom closet offers tailored organization. Lower level baths echo the same elevated stone selections for a consistent, luxurious finish. Major improvements include new windows, new interior doors, a metal standing seam roof, and a new garage door. Positioned in the heart of Corona del Mar Village, moments from boutiques, dining, Ocean Boulevard, and world-class beaches. Turnkey, design driven, and impeccably executed, this residence offers a rare blend of architectural polish and relaxed coastal living.
