Description

Completely renewed in 2026 from fresh paint to refinished hardwood floors, 84 Palmer Avenue offers the finest in contemporary living. The home delights on so many aesthetic and architectural levels by offering the beauty of traditional design while also showcasing the advantages of a more modern home. There's a perfect blend of traditional touches like crown moldings that are understated, yet visually appealing, a fireplace neatly framed by gleaming white brick, a kitchen rich in warm wood accents that extend to the stair railings and bathroom cabinetry-and the lovely hardwood floors! Complimenting this is a modern open floor plan, a large bay window in the living room, which is mirrored in the lower-level family room that boasts sweeping sliders to the garden and a wall of windows. The kitchen beams with natural light from a window and its large skylight. The home has generous closets throughout as well as great storage space, including built-in large cubbies in the garage. The garage, with its tiled flooring, is ideal for hobbies as well as a great space to host a summer party. Upstairs are three bedrooms including the primary bedroom with its two closets and ensuite bathroom. The-completely finished-lower level also has a bonus room with two windows that could work as an office or a guest room. This home really has it all! You are close to shops, restaurants, and schools, and only 35 minutes from NYC. Move in and enjoy all that is Scarsdale!
