Description

Tucked at the end of a quiet cul-de-sac near scenic trails, Thorpe Park, and just a short walk to Deephaven Beach, this exceptional residence blends timeless architecture with modern comfort. Originally designed by Charles Stinson Architects and expertly crafted by John Kraemer & Sons, the home showcases remarkable attention to detail, from expansive Marvin windows that fill each space with natural light to beautifully integrated built-ins that enhance everyday living. At the heart of the home, the chef's kitchen features premium Wolf appliances, a Miele dishwasher, and inviting dining spaces with custom seating and an elegant buffet-perfect for both casual meals and memorable gatherings. Comfort is effortless with zoned high-efficiency furnaces, heated floors, and smart climate controls, while whole-home Sonos audio creates the ideal backdrop for any occasion. The spacious primary suite offers a peaceful retreat with a walk-in closet and refreshed bath, while the lower level provides flexible living with a welcoming fireplace, kids' wing, creative flex spaces, and an entertainer's wet bar. Outdoors, enjoy beautifully designed decks, an expansive backyard with volleyball court and firepit, and endless opportunities to relax, gather, and make lasting memories.
