£950,000
(€1,100,000)

Description

Hillside villa is a luxurious property that has been operated as a successful holiday rental business for several years. There is a well established client base should the new owner wish to continue running this property as a commercial investment, but its location within walking distance of the pretty village of Doukades means that the house could just as easily be a year-round home. Built on the hillside above the village of Doukades, this lovely contemporary villa enjoys the most spectacular far reaching views. A private, paved driveway leads down to the villa where there is ample parking for at least four cars. A large, heated, infinity swimming pool and jacuzzi hold centre stage on the terrace, with ample sunbathing space and outdoor dining area. The main entrance leads straight into an open plan kitchen, living and dining area with balcony doors leading out to the terraces surrounding the property. The kitchen is modern in style and fully equipped with all appliances. Also on this level is a large, bright bedroom with ensuite and private terrace. An impressive marble staircase leads to the upper floor. Upstairs there are three double bedrooms one with bathroom en suite, and a house bathroom, all with top quality tiled floors and even better views than those from the ground floor. All rooms are equipped with air conditioning. The ground floor and pool terrace have been designed to be wheelchair accessible. The popular beaches of Liapades and Paleokatritsa are just a few kilometers drive, and Corfu town and the airport about 20 minutes away. There are three tavernas within walking distance at the village of Doukades and a mini market. The villa would make an excellent second or permanent home.
