Description

CONTEMPORARY FOREST LIVING WITH SUNSET VIEWS IN ELALENI Set within The Plantations at Elaleni Lifestyle Estate, this newly built contemporary home blends clean architectural lines, glass and steel features, and a modern neutral palette to create a light filled home that feels connected to its natural surroundings. The double volume design creates striking open views between levels, while the lower floor offers effortless open plan living with a sleek kitchen, separate scullery, spacious lounge and dining area, and direct flow to a covered patio, level garden, and alfresco seating space. Aluminium shutters are still to be installed on the patio, adding further functionality to this outdoor entertaining area. A guest toilet and double garage with direct access complete the lower level. Upstairs, all four bedrooms are en suite, offering privacy and comfort for family living, while the home's west facing position allows for beautiful sunset views and warm afternoon light to fill the interiors. Designed with practical sustainability in mind, the property includes an 8kVA solar to battery backup inverter, subterranean water harvesting filtered to the home, a gas geyser, ceiling fans, and air conditioning provision in the lounge and all bedrooms for easy future installation. Stylish finishes and thoughtful planning make this a home that is both visually impressive and highly liveable. Elaleni Lifestyle Estate offers a sought after coastal lifestyle centred around nature, wellness, and community. Residents enjoy access to exceptional amenities including the Harvest Barn with lap pool, gym, restaurant, and children's play areas, the Forest Clubhouse with walking and running trails, the Leisure Centre with pools and braai pods, and the private Beach Club positioned near Salt Rock's main beach and tidal pool. With padel and tennis courts, cricket nets, scenic boardwalks, pet friendly living, and a strong outdoor lifestyle at its heart, Elaleni remains one of the North Coast's most desirable estates.
