Description

A spacious stone-built villa, with lovely sea views and large infinity swimming pool. Villa Kallisti sits at the top of a hill with views across the countryside towards the sea and the Albanian coastline in the distance. Located in the area of Vasilika, the villa is a short drive from the beach at Almyros, and within easy reach of Acharavi and Kassiopi. The property grounds are fully fenced with a private gateway leading to the rear of the house where there is ample parking, as well as a covered open garage at the side. Built in 2011, the facade of the property is entirely built of stone with beautiful details over the windows and archways. The main entrance is at the side of the house and leads into a large hallway, with the stone wall continuing on some internal walls of the property as well. Downstairs there is a spacious sitting room at one end, with an energy fireplace and balcony doors leading out to the covered veranda overlooking the pool and the view ahead. Also on this level is a bedroom and separate shower room. Upstairs is the fully equipped kitchen and dining room, a lovely space with lots of natural light and access to the large terrace at the front of the house. There is a wood burning stove in this room, perfect for the winter evening. A good-sized bedroom with access to the terrace is also on this floor, as well as a laundry room and shower room. The property has been built to a very high standard, with attention paid to detail and quality finishings throughout.
