GREENHILL VILLA, Platonas, Corfu

4  2 

£500,000
(€570,000)

Description

An attractive under construction villa in the traditional village of Platonas within a short drive to the beach. Located in the north of the island in the traditional village of Platonas, this property is currently still under construction. All on one level, the property consists of an open plan kitchen/dining and living room area, four bedrooms and two bathrooms. Multiple patio doors and windows throughout the house make it bright and cool for the summer seasons. In addition, the property can be extended if needed as there is an approximately 80m² building allowance left. Outside, the plans include landscaped gardens, a swimming pool and a terrace with BBQ facilities, all designed to take in the surrounding views. Platonas is a quiet, traditional village, less than a 10 minute drive from Roda and Acharavi. The estimated completion date is for January 2027.
