Description

Welcome to 10635 Rosalina Loop, a single-story park-side home built by Gray Point Homes in 2019 that blends modern style with everyday functionality. Featuring a striking three-sides brick exterior and located next to a large neighborhood park with playground and splash pad, this home offers standout curb appeal and one of the most desirable locations in the community with no immediate neighbor on one side. The location offers open views and easy access to outdoor recreation while still providing a quick commute to Randolph Air Force Base, Fort Sam Houston, and major highways. Inside, you'll find four spacious bedrooms plus a dedicated study/flex room, perfect for working from home, a playroom, or additional living space. The open-concept layout is centered around a stunning kitchen featuring 42" custom cabinetry with showcase lighting, custom granite countertops, stainless steel appliances, gas cooking, a large center island with bar seating, and a corner pantry for effortless organization. The refrigerator and select window treatments convey, making this home truly move-in ready. The oversized primary suite serves as a private retreat with a cozy nook perfect for a reading chair or workspace, a large closet with built-in safe, and a spa-inspired bathroom featuring an oversized shower. Step outside to enjoy a covered patio plus extended patio space, overlooking a spacious backyard already equipped with a dedicated electrical panel ready for a future pool, hot tub, or outdoor kitchen. Additional upgrades include a WiFi-ready irrigation system, whole-home surge protection, upgraded recessed lighting with nightlight mode, garage lift storage system, EV charging outlet, insulated garage door, garage air conditioning system, and extended side-yard fencing designed to discreetly screen trash and recycling bins. Why wait to build when the upgrades are already done? Homes with this level of upgrades and location rarely last long-schedule your private showing today!
