Description

Oversized lots in Frisco with this level of space, layout, and school zoning are increasingly difficult to find. Situated on a pie-shaped lot of nearly one-third of an acre within highly sought-after Frisco ISD, this home offers the rare combination of generous indoor living, expansive outdoor space, and a location that continues to drive strong buyer demand. From the moment you enter, the vaulted foyer, sweeping curved staircase, and real wood floors create a warm yet elevated first impression. The private study with solid French doors provides an ideal work-from-home setup, while the formal dining room is perfectly positioned for entertaining. The living room is filled with natural light and highlighted by a dramatic floor-to-ceiling stone fireplace with gas logs. Designed with both everyday living and hosting in mind, the kitchen features knotty alder cabinetry, granite countertops, oversized island, Blanco crushed granite sink, stainless-steel appliances including a five-burner gas cooktop, and extended cabinetry flowing into the breakfast area. The downstairs primary suite offers privacy and comfort with a box window sitting area and a spacious ensuite bath complete with separate vanities, frameless glass shower with bench, soaking tub, granite surfaces, and dual walk-in closets. A secondary downstairs bedroom with full bath access is ideal for guests or multigenerational living. Upstairs includes a game room with built-ins, media room pre-wired for surround sound, built-in homework area, and three additional bedrooms, all with walk-in closets. Two bedrooms share a Jack and Jill bath, while the third has access to a separate full bath. The oversized backyard offers exceptional space for a future pool, sport court, play area, or expanded outdoor living rarely available in Frisco neighborhoods. Covered patio with gas stub for future outdoor kitchen potential. Three-car garage with EV charging capability and additional storage space.
