Description

Step inside a home that truly has room for everyone and everything. With over 3,000 square feet, this spacious two-story design offers five bedrooms, three and a half baths, and multiple living areas that give you the flexibility to live, work, and entertain with ease. From the moment you enter, you'll notice the thoughtful updates that make this home stand out. The recently upgraded kitchen is the heart of it all, featuring a sleek, modern island, stainless steel appliances, and abundant cabinet space perfect for everything from busy mornings to weekend gatherings. Updated flooring on both levels adds a fresh, cohesive feel throughout the home, while added gutters bring peace of mind. The layout offers two separate living areas, giving everyone their own space to relax or come together. Upstairs and down, there's room to spread out without sacrificing comfort. At the end of the day, retreat to the owner's suite, where style meets function. A striking wood accent wall creates a warm focal point, while the sliding barn door leads you into an expansive closet complete with built-in organization. The en suite bath is designed for unwinding, with a soaking tub, separate shower, and plenty of space to start and end your day with ease. Additional features include a rainwater catchment system, emergency generator, whole-house surge protector, UV Air purification system, built-in storage cabinets in the garage, a reverse osmosis system and more. This is more than just a house; it's a place designed to fit your life today and grow with you tomorrow.
